Notice to Correspondents

SHIPPING SEASON

OUR shipping season opens in the spring, about the 15th of April, closing in early June according to the season. In the fall it extends from the end of August to the beginning of December.

FALL PLANTING

With a few exceptions, fall planting of the herbaceous plants is as successful as spring, and many of the early-flowering plants, storing their food over winter, should be planted in the fall, when possible, in preference to the spring.

Woody plants need greater care in fall than spring transplanting, but may be moved successfully.

SELECTED STOCK

Stock selected by customers at the Nurseries, or specially selected stock ordered by mail or otherwise, will be charged at advanced rates according to the value of the stock selected.

QUANTITY

One to four plants of a single variety will be priced at the each rate. The five, ten, and hundred rates will apply only when those quantities consist of a single variety.

Five to thirty-nine plants of one variety and size will be priced at the ten rate.

Forty or more plants of one variety and size will be priced at the hundred rate, when hundred rates are given.

FROM THIS SCHEDULE WE WILL NOT VARY because of the fact that considerable time is required to assemble an order made up of small lots of a kind that are scattered over the nursery.

PACKING

Packing will be done in the most careful manner for shipment to any part of the world. We have made a special study of good packing, and our most distant shipments have rarely failed to reach their destination in the best condition. The packing of Trees and Shrubs will be charged for at actual cost. Herbaceous plants of all kinds will be packed without charge.

DELIVERY

Merchandise for points within the village will be delivered free. Merchandise for points outside the village but on Mt. Desert Island, amounting to twenty dollars or over, will be delivered free. All orders for points off Mt. Desert Island are F. O. B. Bar Harbor.

SHIPPING

We can ship either by the Maine Central Railroad or by steamers connecting directly with steamers to New York and Boston, or by American Railway Express. Customers are requested to state the mode of shipment; otherwise we shall forward according to our best judgment. After delivery to the forwarding agent all goods are at the risk of the purchaser.

INSPECTION

A certificate of inspection will be sent with each shipment where required.

ERRORS

Customers will confer a great favor if they will notify us promptly of any error that may have been made in filling their orders, to enable us immediately to correct the error.

CLAIMS

Claims will not be considered unless made immediately upon receipt of goods.

NON-WARRANTY

While we use the utmost care to have our nursery stock, plants, bulbs and seeds true to name, and will replace any that may prove untrue, no sale by us carries a warranty, express or implied, as to the description, quality, productiveness, or other character of any nursery stock, bulbs, plants or seeds which we send out, nor will we be in any way responsible for the crop; and for any error we shall not be held liable for more than the purchase price. Every purchase from us is made on these terms.
